Professional Service Contracts – Professional Services

AGENCY
TRAINING

Objectives

- Discuss professional service contracts
- Understand the types of services that are classified as professional services

Professional Service Contracts

There are seven different types of Professional Service Contracts

- Personal
- Consulting
- Interagency
- Intergovernmental
- Social Services
- Cooperative Endeavors
- Professional

Applicability of Law

All expenditures of public funds by the Executive Branch of the State, regardless of their source they must follow the laws that govern PSC (Professional Service Contracts) contracts.

Some exemptions in law (RS 39:1554 & 39:1619)

Professional - R.S. 39:1556 (42)

Professional service is defined as work rendered by an independent contractor who has a professed knowledge of some department of learning or science used by its practical application to the affairs of others or in the practice of an art founded on it.

Professional - R.S. 39:1556 (42)

It's important to classify the type of services being provided correctly. The services being provided must be the usual and customary services for the profession.

A veterinarian speaking at a school on how you should take care of your pets, wouldn't be classified as professional services. The services would be classified as consulting and would be limited to \$74,999 per twelve (12) month period or your agency would have to process a RFP.
