# Procurement Policy

**Version: 1.4**

**Dated: 3/31/2022**

**Summary:** The purpose of this policy is to define the procurement guidelines LOCD will follow in the administration of Federal grants.

**Applicable Laws:** The state shall comply with 2 CFR Part 200.317, meaning it will follow the Louisiana Revised Statutes 39, Chapter 17 titled Louisiana Procurement Code subject to any authorized exceptions. The policies of the state align with the requirements set forth under 2 CFR Part 200.317 -200.327 ensuring fair and open competition. A cross walk between the federal regulatory requirement and its counterpart under the Louisiana Procurement Code can be found below.

All non-state grantees and subrecipients are required to follow 2 CFR Part 200.318 through Part 200.327, which can be found in the Grant Administrative Manual at Grantee Admin Manual Section 6 titled “Procurement Methods and Contractual Requirements”.

The State shall comply with the procurement requirements of 24 CFR 570.489(g) and evaluate the cost or price of the product or service.

Additionally, if LOCD designates as the administering agency chooses to provide funding to another State agency, LOCD will require the other state agency to follow the procurement policies of this agency.

**Evaluating Cost or Price:** For procurement of property and services, LOCD will evaluate the cost or price (cost) of all products or services it receives before receiving bids or proposals for every procurement to support the reasonableness of contract costs. Cost may be defined as:

- Total cost of a property or service procured,
- Cost of hourly rates identified in the solicitation, or
- Unit cost as identified in the solicitation

An evaluation may consist of comparing previous or current contracts of vendors of similar services to develop a baseline or range of prices. It may also consist of researching vendors who provide similar services online to look for published pricing or may consist of reaching out to other CDBG partners throughout the country to obtain pricing information.

Regardless of the method to evaluate cost, once bids are received, the state will analyze the actual to anticipated cost and document its rationale for acceptance or rejection of the cost.

**Responsible Party:** The responsible party for procurement and contract management will be the Director of Finance and Reporting (Director) and may be contacted at 225-219-9600. The Director will be responsible for adhering to Louisiana state law regarding procurement as well as all State of Louisiana Division of Administration Office of State Procurement policies and procedures to

ensure that the state's contracting and purchasing activities are conducted in accordance with applicable law, regulation and policy. More information may be found at their website at <http://www.doa.la.gov/Pages/osp/Index.aspx>.
