

Ancillary Appropriations

Department Description

Ancillary Appropriations consists of 11 budget units from four different departments, which all assist their respective departments in achieving their goals through the provision of needed services. Individual departments and budget units include:

Executive Department

- Office of Group Benefits
- Office of Risk Management
- Louisiana Property Assistance
- Federal Property Assistance
- Office of Technology Services
- Office of State Procurement
- Office of Aircraft Services

Department of Civil Service

- Division of Administrative Law

Department of Public Safety and Corrections

- Prison Enterprises

Department of Health and Hospitals

- Drinking Water Revolving Loan Fund

Department of Environmental Quality

- Clean Water State Revolving Fund

21-800 — Office of Group Benefits

Agency Description

The mission of the Office of Group Benefits (OGB) is to successfully manage an employer-based benefits program for current and former employees of the state of Louisiana and other participating groups.

The goals of the Office of Group Benefits are:

- I. Offer OGB's members affordable and comprehensive health and wellness benefits while maintaining a financially stable program.
- II. Improve the health and wellness of OGB's employees and health plan members.

The Office of Group Benefits has one program: State Group Benefits Program.

For additional information, see:

[Office of Group Benefits](#)

800_E000 — State Group Benefits

Program Authorization: Chapter 12 of Title 42 of the Louisiana Revised Statutes of 1950, Section 801, 821, 851 and 871-879 as amended by Act 150 of the First Extraordinary Session of 1998 and Act 1178 of 2001

Program Description

The mission of the State Group Benefits Program is to successfully manage an employer-based benefits program for current and former employees of the state of Louisiana and other participating groups.

The goals of the State Group Benefits Program are:

- I. Offer OGB's members affordable and comprehensive health and wellness benefits while maintaining a financially stable program.
- II. Improve the health and wellness of OGB's employees and health plan members.

The State Group Benefits Program consists of the following activities:

OGB Administration – Performs and/or manages the administrative duties associated with the design and management of OGB's self-funded health insurance plans, customer service, and general agency operation. This activity includes overseeing the third-party administrator(s) and costs associated with the operation of OGB's self-funded health insurance plans.

Third-party Administration (TPA) – Provides for the payment of fees charged by third-party vendors for the administration of OGB's self-funded health plans' medical and prescription drug benefits, COBRA and Disability COBRA benefits, flexible spending benefits, and Medicare Exchange market access. Depending on contracted terms, fees charged by TPAs may be assessed on a per-member or per-enrollee per month (PMPM or PEPM) basis or on a per claim processed basis.

Self-funded Health Insurance – Provides employees, retirees and dependents of the state of Louisiana and other eligible participating groups comprehensive health insurance plans by offering the following OGB designed and managed health plans: Magnolia Open Access, Magnolia Local, Magnolia Local Plus, Pelican HSA775, and Pelican HRA1000. All of these plans include medical, prescription drug, mental health, and substance abuse coverage; as such the expenditures associated with this activity represent the payment of such claims.

Fully Insured Health Insurance – Provides an alternative option for those members whose needs are not best suited by enrollment in the self-funded health insurance plans designed and managed by OGB. The alternatives offered are a HMO/Medical Home Health Plan and Medicare Advantage Plans. These products are fully insured by the underwriters; as such the expenditures associated with this activity represent the pass-through of premiums collected to the applicable insurers.

Capitated Primary Care Network – Provides employees, retirees and dependents of the State of Louisiana and other eligible participating groups who are members of the Magnolia Open Access, Magnolia Local, Magnolia Local Plus, and Pelican HRA1000 plans access to a network of primary and preventative care providers without needing to schedule an appointment and with no out-of-pocket costs or additional premiums. Depending on contract terms, fees charged by the vendor are assessed on a per member or per enrollee per month (PMPM or PEPM) basis; as such the expenditures associated with this activity represent the payment of the monthly capitated fee.

Life Insurance – Provides affordable term life insurance products for eligible employees and retirees, with the state of Louisiana participating in 50% of the cost. Life insurance is also available on eligible dependents, with no state participation. These products are fully insured by the underwriters; as such the expenditures associated with this activity represent the pass-through of premiums collected to the applicable insurers.

Health Savings Account (HSA) Contributions – Provides employees of the state of Louisiana and other eligible participating groups who are members of the Pelican HSA775 Plan access to a Health Savings Account (HSA). Funding represents a combination of employer and employee pre-tax contributions. Expenditures associated with this activity represent the pass-through of these contributions to the HSA bank.

Louisiana Department of Health Products – Provides an efficient means to issue invoices and collect payments from those individuals enrolled in the Louisiana Children’s Health Insurance Program (LaCHIP) Affordable Plan and the Family Opportunity Act Medicaid Plan. These programs are offered by the Louisiana Department of Health (LDH); as such the expenditures associated with this activity represent the pass-through of premiums collected to LDH.

Source of Funding

This program is funded with Interagency Transfers and Fees and Self-generated Revenue. Funding deposited with the State Treasury accumulates interest.

Interagency Transfers budget authority represents payment for premium billing and collection services provided by OGB for the Louisiana Department of Health (LDH) Louisiana Children's Health Insurance Program (LaCHIP) and Family Opportunity Act (FOA) Medicaid program, at a rate of \$7.50 per enrollee per month, plus any applicable bank or credit card processing fees.

Fees and Self-generated Revenue budget authority represents payment of health and life insurance premiums by both participating employees/retirees and their employing agencies, payment of LDH LaCHIP and FOA premiums by program participants, payment of health savings account contributions by both participating employees and their employing agencies, subsidies received from Centers for Medicare and Medicaid Services (CMS) by way of OGB contracted Pharmacy Benefits Manager (PBM) for offering an Employer Group Waiver Plan (EGWP) for covered retirees, and the payment of per enrollee per month (PEPM) administrative fees by fully insured health plan administrators to OGB for administrative costs associated with OGB members enrolled in their plans (PEPM rates vary by contract).

Acquisitions and Major Repairs

Amount	Description
	This program does not have funding for Acquisitions and Major Repairs.

Performance Information

1. (KEY) The Office of Group Benefits will maintain the efficiency and effectiveness of its self-funded health plans by monitoring the agency's Medical Loss Ratio and Inflation Trends.

Children's Budget Link: Not applicable

Human Resource Policies Beneficial to Women and Families Link: Not applicable

Other Links (TANF, Tobacco Settlement, Workforce Development Commission, or Other): Not applicable

Explanatory Note: Medical Loss Ratio is calculated by taking expenses (claims, administrative costs, and ACA related taxes & fees) and comparing it to the premiums collected.

K	Percentage of medical TPA contract performance standards met (LAPAS CODE - 25928)	95.0%	94.4%	95.0%	95.0%	95.0%	95.0%

This data is reported on a calendar year basis, not on a fiscal year basis, and represents the percentage of contract performance standards met in CY 2019. The Third Party Administrator (TPA) during CY 2019 was Blue Cross Blue Shield of Louisiana. The TPA met 17 out of 18 General, Mental Health & Substance Abuse, and Disease Management contract performance guarantee standards for the 2019 plan year.

This data is reported on a calendar year basis, not on a fiscal year basis, and represents the percentage of contract performance standards goal for CY 2020.

This data is reported on a calendar year basis, not on a fiscal year basis, and represents the percentage of contract performance standards goal for CY 2021.

3. (KEY) Maintain a fund balance reserve within a targeted range to ensure a financially stable program.

Children's Budget Link: Not Applicable

Human Resource Policies Beneficial to Women and Families Link: Not Applicable

Other Links (TANF, Tobacco Settlement, Workforce Development Commission, or Other): Not Applicable

Explanatory Note: By working with its actuary, OGB has determined that the appropriate target fund balance range should be between the highest monthly spend of the prior calendar year for the low-end of the target fund balance range, and twice the monthly average monthly spend of the prior calendar year for the high end of the target fund balance range. The target fund balance range is typically recalculated in January each year; therefore the performance indicator values for Performance at Continuation Budget Level, Performance at Executive Budget Level, and Performance Standard as Initially Appropriated may differ, due to timing.

Performance Indicators

L e v e l	Performance Indicator Name	Performance Indicator Values					
		Yearend Performance Standard FY 2019-2020	Actual Yearend Performance FY 2019-2020	Performance Standard as Initially Appropriated FY 2020-2021	Existing Performance Standard FY 2020-2021	Performance At Continuation Budget Level FY 2021-2022	Performance At Executive Budget Level FY 2021-2022
K	FYE Fund Balance (in millions) (LAPAS CODE - 25929)	\$ 292.2	\$ 306.0	\$ 319.9	\$ 319.9	\$ 321.6	\$ 321.6

This fiscal year-end 2020 projection included a 5.0% change in the premium rates for OGB's self-funded health plans over FY19 premium rates. The premium rate change became effective on January 1, 2020. OGB's actuary projected that for FY20 the medical inflation (trend) would be equal to 6% of FY19's self-funded medical claims expenditures, or \$53.8 million; and the prescription drug inflation (trend) would be equal to 9% of FY19's self-funded prescription drug claims expenditures, or \$34.6 million. This projection was developed by OGB's actuary on June 11, 2019, based on accrual financial reports through April 2019.

This amount represents the preliminary accrual-basis calculation of the 2019-2020 fiscal year-end fund balance. This performance indicator is calculated using accrual financial reports prepared by the Division of Administration (DOA) Office of Finance and Support Services (OFSS). Accrual financial data currently available for June 2020 is preliminary, as the June 2020 accrual financial reports will not be available until the FY 2020 Annual Financial Report (AFR) has been completed and audited by the Louisiana Legislative Auditor.

This fiscal year-end 2021 projection included a 6.0% change in the premium rates for OGB's self-funded health plans over current FY20 premium rates. This FYE 2020-2021 Fund Balance projection was provided to OGB by its actuary on June 22, 2020, based in part on accrual financial data through April 30, 2020. Subsequent to the development of this projection, OGB later determined it would enact a 5.5% premium rate increase, to become effective on January 1, 2021.

This fiscal year-end 2022 projection does not include any adjustments for Plan Year 2022 premium rate changes for OGB self-funded health plans over existing Plan Year 2021 premium rates, as Plan Year 2022 premium rates have not yet been set. OGB and its actuary will work with the Group Benefits Estimating Conference, the Group Benefits Policy and Planning Board, the Commissioner of Administration, and the Joint Legislative Committee on the Budget to determine if adjustments to existing premium rates, plan of benefits, eligibility rules, or some combination thereof are needed for Plan Year 2022, per Act 146 of the 2015 Regular Legislative Session.

The fiscal year-end Fund Balance amount shown under the PERFORMANCE AT CONTINUATION BUDGET LEVEL FY 2021-2022 level does not include any impact associated with the selection of a new Pharmacy Benefit Manager (PBM) vendor for the contract to begin effective January 1, 2021 for the administration of pharmacy benefits for four (4) of OGB's five (5) self-funded health plans. OGB has actively sought the approval of a contract for PBM Services since July 2020 when one of five proposals submitted in response to the RFP issued in February 2020 was selected as the successful bidder and a Notice of Intent to Award was issued on July 23, 2020. However, as a result of protests from two bidders whose proposals were not selected, a stay of award was issued and all contract negotiations and implementation efforts were stopped. OGB opted to seek approval of a one-year emergency contract with the vendor with which the PBM was to be awarded to, and while receiving approval of the emergency contract from the Office of State Procurement and a recommendation from the Group Benefits Estimating Conference to submit the emergency contract to the Group Benefits Policy and Planning Board for their review, the Board voted to not recommend approval of the emergency contract. OGB brought the emergency contract to the Joint Legislative Committee on the Budget (JLCB) in August 2020 to begin the customary two-month approval process for OGB contracts and Contract amendments, however due to significant intervention by special interest groups in the normal contract approval processes, OGB, the Division of Administration, and the selected PBM vendor have had to engage in prolonged negotiations with legislators and special interest groups as to the contents of the emergency contract, the selection of the vendor, and the legality of surrounding the use of an emergency contract for this situation. Due to the delay in approval of the emergency contract for PBM services, OGB was unable to incorporate into its FY 2021-2022 Budget Request Document any information that reflects actuarial analysis and evaluation of the impact the final emergency contract will have on OGB's Fees & Self-generated Revenues, Other Charges Expenditures, and the health of the OGB plan as a whole.

4. (KEY) Create baseline health statistics, program design, health improvement, and track progress and success through participation in the InHealth: Blue Health Services disease management program.

This data is reported on a calendar year basis, not on a fiscal year basis, and represents the percentage change in the average number of InHealth: Blue Health Services program participants in calendar year 2019 over calendar year 2018. The average monthly participation count in CY 2019 was 8,458; the average monthly participation count in CY 2018 was 8,816.

This data is reported on a calendar year basis, not on a fiscal year basis, and is intended to represent the anticipated percentage change in the average number of InHealth: Blue Health Services program participants in calendar year 2020 over calendar year 2019.

This data is reported on a calendar year basis, not on a fiscal year basis, and is intended to represent the anticipated percentage change in the average number of InHealth: Blue Health Services program participants in calendar year 2021 over calendar year 2020.

21-804 — Office of Risk Management

Agency Description

The mission of the Office of Risk Management is to develop, direct, achieve, and administer a cost-effective, comprehensive risk management program for all agencies, boards and commissions of the State of Louisiana and for any other entity for which the State has an equity interest, in order to preserve and protect the assets of the State of Louisiana.

The goals of the Office of Risk Management are:

- To provide a comprehensive loss prevention program that promotes loss reduction and asset protection.
- To manage all state property and casualty insurance through commercial insurance, self-insurance, or a combination of both utilizing sound management practices.

The Office of Risk Management has one program: Risk Management Program.

For additional information, see:

804_E000 — Risk Management

Program Authorization: R.S. 39:1527-1544

Program Description

The mission of the Risk Management Program is to develop, direct, achieve and administer a cost effective comprehensive risk management program for all agencies, boards and commissions of the State of Louisiana and for any other entity for which the state has an equity interest, in order to preserve and protect the assets of the State of Louisiana; to fund the claims and loss related liabilities and expenses of the self-insurance program of the state as administered by the Office of Risk Management; to provide funding for contract legal services used to defend the state against claims and legal actions; and to provide funding for Louisiana Department of Justice, Division of Risk Litigation services used to defend the state against claims and legal actions.

The goals of the Risk Management Program are:

- To provide a comprehensive loss prevention program that promotes loss reduction and asset production.
- To manage all state property and casualty insurance through commercial insurance, self-insurance, or a combination of both utilizing sound management practices.

The Risk Management Program consists of the following activities:

- Administration - provides for the overall executive leadership and management of the self-insurance program. It provides administrative support functions performed by state employees such as personnel administration, underwriting, contracts administration, loss prevention administration, claim payment controls (client authority), disaster recovery management, litigated claims management, reserves authority, and performance monitoring activities of the Third Party Administrator's processes relating to claims management and loss prevention.
- Claims Losses & Related Payments - funds the payment of adjusted/settled claims, commercial excess insurance premiums, and related costs. The program activity also funds certain payments to the Third Party Administrator (TPA). The contractual costs paid to the TPA from this program include fees for claims adjusting, processing and administrative services, ancillary services, loss prevention services and emergency adjusting services when necessary.
- Disaster Management and Recovery- the Office of Risk Management (ORM) serves as the single applicant for Federal Public Assistance grants representing the state for all damaged state-owned public facilities. Through this activity, ORM works with the Governor's Office of Homeland Security & Preparedness (GOHSEP) and the Federal Emergency Management Agency (FEMA) to support state agencies through the coordination of benefits between insurance and federal public assistance grants.
- Contract Litigation - funds the payment of contracts issued for the professional legal defense of claims made against the state, including contract attorneys and other related expenses.
- Division of Risk Litigation - This activity provides funding for the reimbursement of the Division of Risk Litigation in the Louisiana Department of Justice for costs incurred in the professional legal defense of claims made against the state.

Source of Funding

This program is funded from Interagency Transfers and Fees & Self-generated Revenues that are derived from premiums billed for insurance provided by this office and from interest earnings from the self insurance fund. Also, the agency is funded with Statutory Dedications derived from the Future Medical Care Fund. State and Quasi-State agencies obtain insurance from the Office of Risk Management, per R.S. 39:36B.(8).

21-806 — Louisiana Property Assistance

Agency Description

The mission of Louisiana Property Assistance is to provide for the accountability of the state’s movable property using sound management practices; to ensure that all state agencies comply with the State Property Control and Fleet Management Regulations; to provide a savings and return on state and federal monies through redistribution and sale of surplus property; and to track the utilization of the state’s fleet of passenger vehicles.

The goals of Louisiana Property Assistance are:

- I. To ensure accountability of the state's movable property according to the guidelines set forth in property control and fleet management regulations (R.S. 39 part XI, Sections 321-332 & Part XIII, Sections 361-364).
- II. To provide pickup services for surplus property that meet the needs of our customers while being timely and efficient (R.S. 39 Part XI, Sections 321-332 & Part XIII, Sections 361-364).

The Louisiana Property Assistance has one program: Louisiana Property Assistance Program.

806_E000 — Louisiana Property Assistance

Program Authorization: R.S. 39:321- 330

Program Description

The mission of the Louisiana Property Assistance Program is to provide for the accountability of the state’s movable property using sound management practices; to ensure that all state agencies comply with the State Property Control and Fleet Management Regulations; to provide a savings and return on state and federal monies through redistribution and sale of surplus property; and to track the utilization of the state’s fleet of passenger vehicles.

The goals of the Louisiana Property Assistance Program are:

- I. To ensure accountability of the state's movable property according to the guidelines set forth in property control and fleet management regulations (R.S. 39 part XI, Sections 321-332 & Part XIII, Sections 361-364).
- II. To provide pickup services for surplus property that meet the needs of our customers while being timely and efficient (R.S. 39 Part XI, Sections 321-332 & Part XIII, Sections 361-364).

The Louisiana Property Assistance Program includes the following activities:

- Property Certifications - Responsible for ensuring that all state agencies comply with property and fleet regulations. This is achieved, in part, by the review of inventory certification documents submitted by each agency. Approval of certification (or rejection) depends upon factors such as percentage, dollar value, or types of items that cannot be located.
- Surplus Property - Assists state agencies by providing transportation and manpower resources to remove surplus property from state agency locations across the state. Louisiana Property Assistance Agency (LPAA) attempts to reutilize surplus movable property by making it available to other state agencies, municipalities, and qualifying non-profit entities.

21-807 — Federal Property Assistance

Agency Description

The mission of Federal Property Assistance is to re-utilize the tax dollar by putting federal property that is no longer needed into the hands of Louisiana entities. This surplus property may be used by all eligible donees in public and private health facilities, cities, parish and state government, as well as qualified 501 non-profit organizations and federal Small Business Administration subcontractors.

The goal of Federal Property Assistance is:

- I. To maximize the percentage of federal property donated annually within Louisiana by assuring the efficient and equitable distribution of property allocated.

The Federal Property Assistance has one program: Federal Property Assistance Program.

For additional information, see:

21-811 — Prison Enterprises

Agency Description

The mission of Prison Enterprises (PE) is to lower the costs of incarceration by providing productive job opportunities to offenders that instill occupational and skills training while producing quality products and services for sale to state and local governments, non-profit organizations, political subdivisions, and others. Operation of PE programs serves to further the Corrections Services reentry initiative by enabling offenders to increase the potential for successful rehabilitation and reintegration into society.

The goals of Prison Enterprises are:

- I. To operate in a professional, customer focused work environment in order to provide quality products and services at competitive prices ensuring customer satisfaction and increased sales.
- II. To increase involvement in the Department's reentry efforts through the continued use of occupational job titles for the offender workforce and through the expansion of offender work programs and Private Sector/Prison Industry Enhancement (PS/PIE) programs. By continuing to instill occupational and skills training to the offender population, this will ultimately reduce the recidivism rate for offenders working in PE programs.
- III. To research, evaluate, expand and/or curtail existing industrial, agricultural, or service programs, product lines, and other items based upon financial data, market trends, customer requests, and overall operational value.

Prison Enterprises is an ancillary agency within the Department of Public Safety and Corrections and receives no state funding for its yearly operational budget. PE provides unique job opportunities for offenders that may otherwise be unavailable. These jobs teach offenders valuable skills as well as a work ethic and a sense of responsibility; all of which are vital for eventual re-entry into society. Due to these opportunities, PE's recidivism rate is typically lower than that of the Department. The overall goal of PE is to have offenders, who are normally a financial burden on taxpayers, work to produce a variety of products and services that save taxpayer dollars. PE pays the offender incentive wages for the entire Department of Public Safety and Corrections, resulting in yearly savings of over one million dollars. Prison-based industry and agricultural operations play an important role in the institutional environment: increasing offender jobs, decreasing the number of correctional officers necessary to supervise the offender population, and assisting in basic work ethic development among the offenders.

This agency has one program: Prison Enterprises.

811_E000 — Prison Enterprises

Program Authorization: R.S. 15:1151-1161

Program Description

Prison Enterprises has two components: Industry Operations and Agriculture Operations.

- **Industry Operations** - The purpose of Industry Operations is to utilize offender labor in the production of low-cost goods and services, which reduce the overall cost of incarceration and save funds for other state agencies, parishes, and local government entities.
 - Prison Enterprises operates fifteen different industries located within six different adult correctional institutions across the state. The major goal of these operations is to provide quality, low-cost products to the department, thus reducing the cost of incarceration. Offenders, who are normally a financial burden on taxpayers, work to produce a variety of products and services that actually save taxpayer dollars. Prison Enterprises strives to produce goods that meet or exceed the quality of similar products available on state contract, offering them for sale at lower prices.
- **Agriculture Operations** - The purpose of Agriculture Operations is to utilize offender labor in the production of a wide variety of crops and livestock sold on the open market.
 - Prison Enterprises operates thirteen agricultural entities located within five different adult correctional institutions across the state. Range herd operations produce cattle that are sold at public auction. A continual goal of Agriculture Operations is to improve the efficiency of the row crop and cattle programs to meet or exceed state and regional yields and prices for similar operations.

21-815 — Office of Technology Services

Agency Description

The mission of the Office of Technology Services (OTS) is to establish competitive, cost-effective technology systems and services while acting as the sole centralized customer for the acquisition, billing and record keeping of those technology services. The Office of Technology Services shall charge respective user agencies for the cost of the technology and services provided including the cost of the operation of the office in a fair, equitable, and consistent manner, in full compliance with State of Louisiana statutes.

The goals of the Office of Technology Services are:

- To procure and provide competitive, cost effective technology systems and services. Leverage the state’s buying power to secure the most favorable contract terms and conditions which provide for increases and/or reductions in customer consumption without termination penalties/liabilities.
- To determine the most cost effective sourcing and procurement for the state enterprise.
- To provide a comprehensive package of technology systems and services which meet the needs of the government enterprise and enables individual agencies/customers to carry out their operational plans, missions, program goals and objectives.
- To assist customers in the assessment of their technology requirements and provide consolidated management, administration, and implementation coordination/support of services as appropriate.

The Office of Technology Services has one program – Office of Technology Services Program. As the central procurement and provisioning agency for all technology goods and services, OTS is uniquely positioned to identify the total cost of ownership/operations and make appropriate strategic sourcing determinations. OTS directly supports the administration’s goal for a transparent, accountable and effective state government through the full disclosure of consumption levels and costs of technology services. Additionally, OTS works collectively with the Division of Administration to increase customer satisfaction with by establishing satisfaction level baselines for rates, service responsiveness and reliability and by improving upon them.

815_E000 — Office of Technology Services

Program Description

The mission of the Technology Services Program is to establish competitive, cost-effective technology and communication systems and services, while acting as the sole centralized customer for the acquisition, billing, and record keeping of those services. The Office of Technology Services (OTS) shall charge respective user agencies for the cost of the technology, communications, and services provided, including the cost of the operation of the office, in a fair, equitable, and consistent manner, in full compliance with Federal 2 CFR-200 and State of Louisiana statutes.

The goals of the Technology Services Program are:

- To procure and provide competitive, cost effective technology and communication systems and services by leveraging the state’s buying power to secure the most favorable contract terms and conditions that provide for increases and/or reductions in customer consumption without termination penalties or liabilities.
- To determine the most cost effective sourcing and procurement for the state enterprise.
- To provide a comprehensive package of technology and communication systems and services that meet the needs of the government enterprise and enable individual agencies/customers to carry out their operational plans, missions, program goals, and objectives.
- To assist customers in the assessment of their technology and communications requirements and provide consolidated management, administration, and implementation coordination and support of services, as appropriate.

The Technology Services program consists of three activities - Technology Services, Production Support Services, and Telecommunications Management. As the central procurement and provisioning agency for all technology goods and services, OTS is uniquely positioned to identify the total cost of ownership/operations and make appropriate strategic sourcing determinations. OTS directly supports the administration’s goal for a transparent, accountable and effective state government through the full disclosure of consumption levels and costs of technology services. Additionally, OTS works collectively with the Division of Administration to increase customer satisfaction with by establishing satisfaction level baselines for rates, service responsiveness and reliability and by improving upon them.

21-816 — Division of Administrative Law

Agency Description

The mission of the Division of Administrative Law is to provide a neutral forum for resolving administrative disputes by conducting accessible, fair and prompt hearings and rendering well-reasoned decisions and orders.

The goals of the Division of Administrative Law are as follows:

- I. Provide due process rights afforded to Louisiana citizens by promptly docketing and conducting hearings subject to the Division of Administrative Law’s jurisdiction.
- II. Maintain the independence and integrity of the Division of Administrative Law, and protect the role of the administrative law judge as an impartial adjudicator.
- III. Continue to develop more efficient processes that do not compromise accessibility in proceedings.

As one agency, conducting one program and one service, the following objectives and strategies support all of the DAL’s articulated goals.

The Division of Administrative Law has one program: Administration Program.

For additional information, see:

21-820 — Office of State Procurement

Agency Description

The mission of the Office of State Procurement (OSP) is to establish and administer competitive, cost-effective purchasing opportunities and contracts for goods and services required by state agencies. The Office is also responsible for the regulation of RFPs and contracts for professional and complex services, as well as processing bid requisitions and orders for items and services not covered by annual contracts. The Office of State Procurement shall charge respective user agencies for the cost of the services provided, including the cost of the operation of the Office, in a fair, equitable, and consistent manner, in full compliance with Federal cost allocation regulations and State law.

The goals of the Office of State Procurement are:

- To effectively manage costs by standardizing procurement of goods and services, ensuring that contract pricing, terms and conditions are advantageous to the State.
- To provide quality and timely services to user agencies and vendors to ensure that the office prioritizes customer service to agencies and vendors alike.
- To realize economies of scale by leveraging the State’s buying power, ensuring that small and large agencies alike have access to the best pricing available, and that the State’s enterprise purchasing activities are aligned with the State’s budget.
- To ensure that all procurement and related management processes are conducted in full accordance with State and Federal law, policies and procedures.

The Office of State Procurement has one program: Office of State Procurement Program. As the central procurement agency for almost all goods and services statewide, OSP is positioned to measure and manage the State’s procurement processes and make appropriate strategic sourcing determinations.

For additional information, see:

Office of State Procurement

820_E000 — Office of State Procurement

Program Authorization: R.S.39:3 and R.S.39:4

Program Description

The mission of the Office of State Procurement program is to establish and administer competitive, cost-effective purchasing opportunities and contracts for goods and services required by state agencies. The Office is also responsible for the regulation of RFPs and contracts for professional and complex services, as well as processing bid requisitions and orders for items and services not covered by annual contracts. The Office of State Procurement shall charge respective user agencies for the cost of the services provided, including the cost of the operation of the Office, in a fair, equitable, and consistent manner, in full compliance with Federal cost allocation regulations and State law.

The goals of the Office of State Procurement program are:

- To effectively manage costs by standardizing procurement of goods and services, ensuring that contract pricing, terms and conditions are advantageous to the State.
- To provide quality and timely services to user agencies and vendors to ensure that the office prioritizes customer service to agencies and vendors alike.
- To realize economies of scale by leveraging the State’s buying power, ensuring that small and large agencies alike have access to the best pricing available, and that the State’s enterprise purchasing activities are aligned with the State’s budget.
- To ensure that all procurement and related management processes are conducted in full accordance with State and Federal law, policies and procedures.

The Office of State Procurement (OSP) program consists of one program and activity – State Procurement. As the central procurement agency for almost all goods and services statewide, OSP is positioned to measure and manage the State’s procurement processes and make appropriate strategic sourcing determinations.

For additional information, see:

829_E000 — Flight Maintenance

Program Authorization: R.S. 39:360(C)

Program Description

The mission of the Flight Maintenance Program is to manage the overall maintenance and provide all needed and required support for safe, proper, and economic operation of the State's various aircraft.

The goal of the Flight Maintenance Program is:

- I. To have no aircraft accidents caused by equipment malfunctions stemming from inadequate or faulty maintenance.

The Flight Maintenance Program consists of one activity - Supply and Manage State's Aircraft Fleet. Through this activity, the agency performs maintenance, inspections, modifications, parts procurement and replacement avionic services, fuel services, storage, and outside services as required within the guidelines, rules and regulations of the Federal Aviation Administration, aircraft and engine manufactures, industry standards and laws of the State of Louisiana.

21-860 — Environmental State Revolving Loan Funds

Agency Description

The Environmental State Revolving Loan Funds consists of the Clean Water State Revolving Loan Fund and the Brownfields Cleanup Revolving Loan Fund. The Clean Water State Revolving Fund helps individual citizens and local governments participate in environmental programs by assisting municipalities to finance and construct wastewater treatment works and drinking water facilities. The Brownfields Cleanup Revolving Loan Fund allows loans to be issued to qualified borrowers who are willing to participate and follow the guidelines of the Brownfields Cleanup Revolving Loan Program.

The Water Planning and Assessment Division in conjunction with the Financial Services Division - Clean Water State Revolving Fund Section strive to uphold Title VI of the federal Clean Water Act and to protect the health and welfare of the citizens of the state, as well as to enhance the environment of the state by administering the Clean Water State Revolving Fund.

The Remediation Division’s Brownfields Program in conjunction with the Office of Management and Finance Support Services - State Revolving Fund Section strives to uphold Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) Section 104(k) to protect the health and welfare of the citizens of the state, as well as to enhance the environment of the state by administering the Brownfields Cleanup Revolving Loan Fund.

The goal of the program is to protect the health and welfare of the citizens of the state, as well as to enhance the environment of the state, by providing financial assistance to eligible borrowers for improvement and/or construction of wastewater treatment facilities. DEQ is committed to supporting the three major objectives found in Title VI of the Clean Water Act; these are:

1. Construction of publicly owned treatment works (Section 212)
2. Implementing a management program (Section 319); and
3. Developing and implementing a conservation and management plan (Section 320).

For additional information, see:

860_E000 — Environmental State Revolving Loan Funds

Program Authorization: R.S. 30:2302

Program Description

The Water Planning and Assessment Division in conjunction with the Office of Management and Finance Support Services - State Revolving Fund Section strive to uphold Title VI of the federal Clean Water Act and to protect the health and welfare of the citizens of the state, as well as to enhance the environment of the state by administering the Clean Water State Revolving Fund.

The agency's goal is to protect the health and welfare of the citizens of the state, as well as to enhance the environment of the state, by providing financial assistance to eligible borrowers for improvement and/or construction of wastewater treatment facilities. DEQ is committed to supporting the original three major objectives found in Title VI of the Clean Water Act, as well as the Water Resources Reform and Development (WRRDA) of 2014 expanded eligibilities; these are:

1. Construction of publicly owned treatment works (Section 212)
2. Implementing a management program (Section 319); and
3. Developing and implementing a conservation and management plan (Section 320).
4. Construction, repair, or replacement of decentralized wastewater treatment systems that treat municipal wastewater or domestic sewage;
5. To manage, reduce, treat, or recapture storm water or subsurface drainage water;
6. To reduce the demand for publicly owned treatment works capacity through water conservation, efficiency, or reuse;
7. Development and implementation of watershed projects meeting the criteria set forth in section 122;
8. To reduce the energy consumption needs for publicly owned treatment works;
9. For reusing or recycling wastewater, storm water, or subsurface drainage water;
10. To increase the security of publicly owned treatment works; and
11. To provide assistance (for any qualified nonprofit entity) to owners and operators of small and medium publicly owned treatment works—
 - (A) To plan, develop, and obtain financing for eligible projects under this subsection, including planning, design, and associated preconstruction activities; and
 - (B) To assist such treatment works in achieving compliance with this Act

The Remediation Division's Brownfields Program in conjunction with the OMF Support Services - State Revolving Fund Section strives to uphold Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) Section 104(k) to protect the health and welfare of the citizens of the state, as well as to enhance the environment of the state by administering the Brownfields Cleanup Revolving Loan Fund. Brownfield sites are vacant and/or underutilized properties where environmental concerns prevent their redevelopment. DEQ's Brownfield Program

facilitates the reuse of blighted properties into neighborhood assets by helping to address the environmental issues that hinder redevelopment as local community amenities and economic development opportunities.

Supported by a grant from the U.S. Environmental Protection Agency’s (USEPA’s) Brownfields and Land Revitalization Program, DEQ’s Brownfield Cleanup Revolving Loan Fund (BCRLF) Program supports the redevelopment of Brownfield sites by providing qualified applicants, including public, private and nonprofit entities, the necessary capital to clean up contaminated properties to facilitate their reuse. DEQ’s BCRLF will initially focus on three geographic areas chosen based on the momentum already underway by local Brownfield Programs and project partners to support Brownfield redevelopment:

- § Shreveport Common in Shreveport
- § Historic Downtowns of Monroe and West Monroe
- § Rural areas such as Arabi in St. Bernard Parish

If projects are not ready for cleanup in the initial target areas, LDEQ may solicit projects from other areas of the State in order to fully utilize the funding.

Cleanup loan and sub-grants awarded under DEQ’s BCRLF will support EPA’s FY 2018-2022 Strategic Plan, specifically Goal 1 – A Cleaner, Healthier Environment, Objective 3 – Revitalize Land and Prevent Contamination, as well as the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended by the Brownfields Utilization, Investment, and Local Development (BUILD) Act (P.L. 115-141).

Source of Funding

This program is funded with Statutory Dedications from the Clean Water State Revolving Fund (CWSRF) (R.S. 30:2302) and the Brownfields Cleanup Revolving Loan Fund (R.S. 30:2552). (Per R.S. 39:36B.(8), see table below for listing of expenditures out of each Statutory Dedicated fund). The CWSRF consists of federal funds and state match via general obligations bonds and general fund, which will be used to make direct loans to local governments to finance sewer system improvements to clean up water in the state. The Brownfields Cleanup Revolving Loan Fund consists of grants from the federal government which provide loans for cleanup of brownfields sites that will result in benefits to the public by reducing risk to public health and the environment.

21-861 — Drinking Water Revolving Loan Fund

Agency Description

The mission of the Drinking Water Revolving Loan Fund (DWRLF) is to provide for the correction of conditions that may cause poor water quality and/or quantity delivery to Louisiana citizens.

The goal of the DWRLF is to provide assistance in the form of low-interest loans and technical assistance, to public water systems in Louisiana to assist them in complying with state and federal drinking water regulations ensuring that their customers are provided with safe drinking water, thereby protecting the public health.

Explanatory Notes: Drinking Water Revolving Loan Fund is an ancillary fund in the Department of Health and Hospitals, Office of Public Health. The Drinking Water Revolving Loan Fund, (DWRLF) was created to assist public water systems in financing needed drinking water infrastructure improvements (e.g., treatment plant, distribution main replacement, storage facilities, and new wells). The recipients of the services provided by the DWRLF Program are the consumers of water from those publicly and privately owned community water systems and nonprofit, non-community publicly owned water systems in the state of Louisiana. The DWRLF consists of federal funds and state match via interest on loans outstanding from the fund.
