

# **INTERIM EMERGENCY BOARD**

Senate Committee Room E

August 21, 2014

9:30 a.m.

## **MEETING MINUTES**

A public meeting of the Interim Emergency Board was held in Senate Committee Room E on August 21, 2014, at 9:30 a.m.

### **ITEM NO. 1**

Sen. John Alario, board chair, called the meeting to order at 9:30 a.m., and asked that the secretary call the roll.

Present:

- Sen. John Alario, President of the Senate and IEB Chairman
- Rep. Chuck Kleckley, Speaker of the House of Representatives and IEB Vice Chair
- Ms. Kristy Nichols, Commissioner of Administration
- Mr. Randy Davis, proxy for Lt. Governor Jay Dardenne
- Mr. Ron Henson, designee of State Treasurer John Kennedy
- Sen. Barrow Peacock, proxy for Sen. Jack Donahue
- Rep. Jim Fannin, Chairman of the House Appropriations Committee

### **ITEM NO. 2**

Sen. Alario requested a motion for approval of the minutes of the January 14, 2014, meeting as presented to the board. Mr. Davis moved to approve the minutes as submitted. The motion passed with no objection.

### **ITEM NO. 3**

Sen. Alario asked Mr. Mark Moses, Director of Facility Planning and Control, to introduce the appropriation funding request being presented to the board.

Mr. Moses explained that the Board of Regents on behalf of Southern University A&M College of Baton Rouge was requesting \$312,896 to stabilize Elton C. Harrison Drive on the university's main campus and provide for ingress/egress route to the student dormitory and social areas, due to a deteriorated culvert and multiple, recent high water events caused by very heavy rains. He further explained that Southern University had initially submitted a request to the board for \$3 million in funding to repair the collapsed street. However, Governor Jindal subsequently declared that the collapsed road represented an emergency and directed DOTD to repair the road. The subsequent application by the Board of Regents reflects the reduced scope of work performed by DOTD and was being requested to repay DOTD for the repairs made. Mr. Moses added that this project involved unusual circumstances, and repairs would have taken much longer if DOTD had not stepped in to make the repairs. He stated that the Division of Administration was recommending that the request be funded.

Mr. John Carpenter, Legislative Fiscal Officer, stated that his office had done an analysis and was also recommending approval of the request in the amount of \$312,896.

Sen. Peacock motioned approval of the request. The motion passed with no objection.

#### **ITEM NO. 4**

Sen. Alario asked Mr. Moses to introduce the 45 priority change items on the agenda, which he understood Mr. Moses was requesting for consideration in globo. Mr. Moses explained that his agency was requesting that a total of \$56,155,000 in Priority 1 be moved to Priority 5, pursuant to R.S. 39:461.4, because the funds will not be needed for cash flow in the current fiscal year.

- 4-44 That \$250,000 of the general obligation bond appropriation for Waterworks District #1 DeSoto Parish, Water System Improvements and Extension, Planning and Construction (\$1,977,300 Local Match) (DeSoto) [50/NJP-869 on page 169] in Priority 1 be moved to Priority 5.
- 4-45 That \$1,390,000 of the general obligation bond appropriation for West Feliciana Parish School Board, Julius Freyhan Cultural/Conference Center, Planning and Construction (West Feliciana) [50/S63-231 on page 185] in Priority 1 be moved to Priority 5.

It was mentioned that Item No. 4-4 had been withdrawn because a cash line of credit had already been granted on that project.

Sen. Alario asked Mr. Moses about Item No. 4-45, the \$1,390,000 of general obligation bond appropriation for West Feliciana Parish School Board, Julius Freyhan Cultural/Conference Center, and why its priority was being changed. Mr. Moses indicated the drawings weren't expected to be complete until December, so at best the project would bid next spring. Sen. Alario confirmed that the drawings would need to be reviewed by Facility Planning and Control before going out to bid. Mr. Moses reiterated that there was some existing cash and that the project might be able to bid with that existing cash next spring, but this recommendation would prevent additional cash from being tied up unnecessarily. In addition, Mr. Moses explained that the project was probably a little underfunded, and moving it to Priority 5 would allow a noncash line of credit to be granted this year with potential additional funding next year.

Rep. Kleckley asked Mr. Moses if his staff was communicating with the agencies with projects included in this request and explaining to them that they are not losing the money, but are just moving it to be addressed at a later time. Mr. Moses stated that his staff was communicating this information to the agencies.

Mr. Henson stated that the Bond Commission had granted \$1.2 billion in Priority 1 at the July 2013 meeting. He questioned whether the \$258 million in Priority 1 recommended for lines of credit at the August Bond Commission meeting and the \$56 million in priority changes being considered by IEB would address all remaining Priority 1 appropriations. Mr. Moses confirmed that with the actions of the IEB and the Bond Commission, all but a handful of Priority 1 appropriations would have been addressed.

With no further discussion, Rep. Kleckley motioned approval for items 4-1 through 4-45 in globo, and the motion was passed with no objection.

With no other business before the board, Rep. Fannin moved to adjourn, which passed with no objection. The meeting was adjourned at 9:39 a.m.

Respectfully submitted,

Sue Israel, Secretary

1. For what purpose will these funds be used? Why is this requested appropriation an emergency? When was the (possible) shortage of funds realized?

Emergency IEB funding will stabilize Elton C. Harrison Drive on the main campus of Southern University and A&M College in Baton Rouge (SUBR) and provide for ingress/egress route to the student dormitory and social areas. Due to a deteriorated culvert and multiple, recent high water events, the primary road leading to the student dormitory and social complex area (Elton C. Harrison Drive) failed, collapsing into the ravine that runs through the SUBR campus. Currently the students must use Farm and James L. Hunt Roads to enter/exit the living and social area of the campus, and both roads are not suitable for the anticipated amount of traffic expected with the beginning of the fall 2014 semester. In addition to the obvious safety hazards resulting from the collapse of Elton C. Harrison Drive, the lack of suitable ingress/egress routes may also adversely affect student enrollment when parents bring first-time students to campus. The current ingress/egress routes to the SUBR student living and social area of campus does not provide students with a safe living and learning community that is conducive to academic, cultural, and social success.

2. Previous Legislative Consideration:

- A. Was this program or project considered by the Legislature in the same relative form either by amendment or some legislative instrument? Yes  No   
If considered, please explain:

- B. Was this item vetoed by the Governor after being included in the current year:  
Appropriations Bill: Yes  No       Capital Outlay Bill: Yes  No   
If vetoed, please explain the reason:

3. Can this request be covered or partially covered by existing funds in the department or agency's current budget? Yes  No   
Please explain:

4. Will this emergency appropriation require any future recurring appropriations or any possible generation of savings or revenue? Yes  No   
If so, please explain: (Use additional sheet to continue explanation if necessary.)

5. Expenditure Breakdown--Please provide a detailed breakdown of expenditures by category . If based on a cost estimate, please attach a copy. What is the time period covered by the request (number of months). Attach any other pertinent information.

The Board of Regents (BoR) respectfully requests that the state Department of Transportation and Development work with the Southern University System (SUS) Office, in conjunction with Southern University and A&M College (SUBR), the state Office of Facility Planning and Control, and any other relevant stakeholders, to develop an accurate cost estimate for each road project. The current IEB request from the BoR, on behalf of SUS/SUBR, totals \$312,895.81 based on invoices provided by the Department of Transportation and Development.

This original application and two copies with attachments (if any) must be submitted to the Board Secretary (225-342-7000) at the Claiborne Building, 7th Floor, Suite 7-210, or mailed to:

History/Pertinent Information/Analysis relative to this request:

*Elton C. Harrison Drive, the primary road leading to the student dormitory and social complex area failed, collapsing into the ravine that runs through the SUBR campus. The alternate routes available to access the area Farm Road and James L. Hunt Road are unsuitable for the anticipated amount of traffic expected in the fall 2014 semester. The limited ingress/egress to the living and social area of the campus would not provide a safe environment for the students.*

*In a letter dated July 16, 2014, Governor Jindal authorized the Department of Transportation and Development to enter into a cooperative endeavor agreement to provide the personnel, equipment and materials needed to perform the emergency repairs.*

RECOMMENDATION:

*It is recommended that this request be funded. The collapse of the road could not have been anticipated by the legislature and the limited ingress/egress situation posed a hazard to life and property.*

## Funding Request Analysis

Department/Agency: Louisiana Board of Regents  
Requested Funding Amount: \$312,895.81  
Purpose: Emergency Road Repair

1. Is the proposed purpose capital outlay in nature? *Yes.*
2. Has the proposed purpose been requested for capital outlay funding? *No.*
3. Was the project considered and rejected by the legislature during the most recent session? *No.*
4. If the proposed purpose is capital outlay in nature, is there current capital outlay funding available for the proposed work? *No.*
5. Has the proposed purpose been identified as a deficiency in the FPC facility condition assessment? *Not applicable. No assessments of roadways were made.*
6. Is the requested funding sufficient to fulfill the proposed purpose? *Yes.*
7. Is the purpose/need the result of an acute event? *Yes, the collapse of the roadway was an acute event.*

**History / Pertinent Information / Analysis relative to this request:**

Southern A&M (Baton Rouge) seeks \$312,896 in funding to reimburse the Louisiana Department of Transportation and Development (DOTD) for repairs made to Elton C. Harrison Drive. In early June 2014, a section of Elton C. Harrison Drive collapsed due to a deteriorating corrugated metal culvert pipe under the street and high water due to heavy rains. Campus police closed the road cutting off vehicular access to student housing and the social complex area of the campus.

The Southern University Board of Supervisors initially submitted a \$3M IEB request to repair the collapsed street. However, the Governor subsequently declared that the collapsed road represented an emergency and directed DOTD to repair the road. This IEB request of \$312,896 is to reimburse DOTD for use of existing labor, equipment and materials used to temporarily repair the road as described in the Governor's emergency declaration letter to DOTD. The repairs include bridge spans temporarily loaned by DOTD until permanent repairs are performed. This request includes reimbursement to DOTD for the following costs: labor \$82,984, equipment \$98,594, and materials \$131,318. DOTD has completed all work on the project per the Board of Regents.

The difference in cost between Southern's original IEB request of \$3M and the current request of \$312,896 is due to reduced scope of work performed by DOTD compared to the original IEB request. The original IEB request of \$3M sought funding for improvements along Farm and Hunt roads for ingress/egress improvements addressing safety for student pedestrian traffic. The roads proposed for improvements in the original IEB request are both unpaved and Hunt Road has another culvert that is deteriorated similar to the one that caused the collapse on E. C. Harrison Drive.

**RECOMMENDATION:**

The Legislative Fiscal Office recommends approval of this request in the amount of \$312,896.
